

### Short Profile:

Manav Garg is the CEO & Founder of Eka Software Solutions, a leading provider of Commodity Management software. An entrepreneur and former commodity trader, Manav is the driving force behind Eka's innovative product portfolio and is responsible for its global business strategy and growth.

Employing his in-depth knowledge of commodity markets and insights into the shortfalls of the technology that prevailed, Manav founded Eka in the year 2004. Since incorporation, Manav has worked towards his vision of creating a world-class Indian Software Product Company which provides an end-to-end solution for global physical commodity markets.
