

**Navyug Mohnot**  
**Founder & Chairman,**  
**QAI**

Navyug Mohnot is an alumnus of the Indian Institute of Technology, Delhi. After his B.Tech from IIT, he went to the US on a fellowship, to do a Masters from the University of Rochester. He returned to India and set up QAI India to evangelize the concepts of Process and Quality. Over the years, QAI has pioneered the deployment of best practices across industries and geographies, in the area of Operational Excellence.

Under Navyug's stewardship, QAI has grown from a single location entity to a trans global organization with offices all over the world including USA, UK, India and China It has also gone on to become a thought leader in this space and a very respected brand.

Navyug has been awarded the IIT Alumni Award for "Outstanding Contribution to National Development". In a survey by Dataquest, the leading IT trade press publication, he was recognized as one of the 50 leaders who have shaped and are shaping the Indian IT industry.

Navyug has spoken at various conferences around the world and he is a TiE Charter Member, a mentor on the NASSCOM Emerge Forum and on the editorial advisory board of India for India's first journal on consulting titled "Consulting Ahead." He has been a judge on IBM's "Great Minds Challenge" and holds the distinction of being appointed as a visiting professor to College of Computing and Communication Engineering (CCCE) of The Graduate University of Chinese Academy of Sciences (GUCAS).
