

**Sunitha Prasad**  
**Entrepreneurship Evangelist**

Sunitha is an entrepreneurship evangelist, with most of her over 12 years of work experience in the entrepreneurship promotion, development and entrepreneurship education space.

Having spent the last 5 years with National Entrepreneurship Network, Sunitha is well acquainted with the entrepreneurship ecosystem and has a wide network within the key stake holders.

At NEN, Sunitha designed, developed and drove two key programs - the NEN Resource Bureau and the NEN Mentor Platform. Through the Resource Bureau, built a strong relationship and network of 3000+ entrepreneurs and investors from across India, who committed to investing their time and effort towards the NEN mission of creating more entrepreneurs for India. The NEN mentor Platform supported more than a thousand entrepreneurs by providing them access to mentors/experts who helped them with their challenges.

Before NEN, Sunitha was in the education sector - setting up a Math Lab for an educational institution. This lab is an innovative way to teach and learn math for the primary school children that became a success and was replicated in other institutions too. As a program co-ordinator for the Bridge Course Program at Akshara Foundation, Sunitha was also instrumental in getting hundreds of out-of-school children back into school and learning.

Sunitha started her career in advertising and moved to marketing, including in the early stages of the organized retail sector.
