

Udai Singh Solanki
Chief Technology Officer & Managing Director India,
eRevMax

Udai Singh Solanki is one of the founding members of eRevMax. After the inception of the company in late 2001, he created the first version of the RateTiger product within a record time of six months. With over 15 years of experience in product development, Udai, in his CTO role, provides strategic guidance to the development teams, while also overseeing organizational processes and IT strategy. In addition to this, his responsibility also includes hospitality systems integration and Information Security and Management.

Prior to joining eRevMax, Udai worked with a small CRM product company. He completed his graduation from M.B.M. Engineering College, Jodhpur and went on to IIT Kharagpur for his Masters in Industrial Engineering & Management. Udai also completed an Advanced Management Programme from IIM Calcutta. Udai is based in eRevMax's technical development centre located in Kolkata, India, where he oversees all daily operations.
